

## D.D. MANN ON THE CROP SITUATION

C.N.R. Vice President Estimates Average Yield at 30 Bushels. Little Frost Damage.

D. D. Mann, vice-president of the C. N. R. who spent yesterday afternoon in the city, said that he was not satisfied with the crop situation in the west with The Bulletin. To view the condition of the crops he had made a tour of his visit to the west. From Humboldt to Battleford, to Fort Macleod, to Lethbridge, to Medicine Hat, to Prince Albert, Regina, and other points will be visited later. From Lethbridge he had come to Edmonton.

The grain was stocky and should run as high as 40 bushels in good fields, but the yield will be lower. The bulk, he thinks, will run between 25 and 30 bushels per acre.

That the yield will not be as far advanced and will take a week later to mature. The crop, however, is very heavy and the grain harvested will be the best kind to be had.

Between Lethbridge and Vermilion many of the joints were broken in the night, lost from Vermilion to Edmonton the word used by Mr. Mann to describe the crops is "miserable."

It is still too early in another week of this fine weather cutting will not begin. In discussing the prospects of damage to the crops, Mr. Mann said that he was particularly struck with the greenness and freshness of the grain, and that the yield will be good, indicated damage by frost. Many samples of grain were presented along the route and in every case the grain was excellent grade.

Mr. Mann said that the C. N. R. will be able to get in and have to cut the crop this season. "There is no way to save the crop," he says. "The only equipment obtainable can take and not plant the seed." The farmer will wait it out in the meantime.

Describing the present building situation for the coming year, Mr. Mann estimated that it will require between \$200,000 and \$300,000 to put the grain of the railway company's two years in extending their lines.

## FACE MURDER CHARGE.

Five Boys Set Upon Youth About to Enter Synagogue.

New York, Sept. 4.—Five boys, ranging from 10 to 15 years, have been committed to the county jail in New Brunswick, N.J., charged with "the murder of a lad of 11 years in front of a synagogue on Saturday night." The prisoners are George Heinz, 14, Louis Joseph, Edward John Bartow and Charles Hart, all of whom live in New Brunswick, and the son of Max Chikinski. Chikinski was about to enter the synagogue when several street boys, who had been following the five for some time, attacked him on account of his religion. He returned with an epithet in kind and they immediately set upon him.

## STRIKING TELEGRAPHERS.

Engaged in P.R.—50 Arrive From City—Gains \$100,000.

Winnipeg, Sept. 4.—Twenty-four striking telegraphers arrived in the city yesterday from Chicago, having been engaged in work for the Canadian Pacific. Most of them will be distributed along the main line east and west, but the companies have stated that in his opinion the strikers had the companies beaten. About 100 men of Chicago were present, but not all were strikers, and were waiting and expected to get home if there was any chance of big railway operators going on strike. In fact, the men of Chicago were present, but still there were 40 or 50 men in all, sympathetic with the strike and who had been working out before letting the boys loose.

Morris, Man., Sept. 4.—A mistake that came very near having fatal consequences was made yesterday at the home of K. Bestwick, Mrs. Bestwick's son, who was away on a call to see her yesterday was Miss Lemone. After conversing for some little time and getting thirsty, Mrs. Bestwick asked him if he wanted to have the barrel out of the barrel cart. It was being brought in both barrels to the house.

The man took a drink. A hasty examination showed that there were two barrels, one containing water and one containing drinking water and the other a solution of paris green for painting.

He was taken to the water that she gave him and was soon sent to the hospital.

In the meantime, a hasty examination showed that there were two barrels, one containing water and one containing drinking water and the other a solution of paris green for painting.

## OLD SONG.

On the world goes up and the world goes down,  
And the sunshines follows the rain,  
And yesterday's sun and yesterday's  
twin  
Can never come back again, sweet wife,  
Can never come back again.

For the world is warden, he is bold  
And the world will hold him, he is bold  
And the heart that a man has been  
and sad  
Will cling to its work in the morning  
gave sweet wife,  
To its work in the morning, day for  
Charles Kingsley.

## SOCIAL.

Mr. H. N. Kipp, of Toronto, who has been the guest of Rev. Dr. McQueen, has returned to his home for a couple of days, left for Vegreville this morning and will return.

Mrs. Wilson, of St. Thomas, wife of Senator Wilson, who spent a day in Edmonton, has returned to Banff to Vancouver.

Mr. W. A. Buchanan, provincial librarian, has returned to the city from an extended trip to eastern cities. Mrs. Buchanan will return from Ontario to Edmonton on Saturday.

Miss Saunders returned last night from Banff, where she has been spending the summer.

## YEAMANS—HODGKINSON.

The marriage took place last evening at the church of St. Paul, between the parents of Mr. Walter Yeamans and Miss Fatty Hodgkinson, Rev. A. M. Yeamans, of St. Paul, and Miss Fatty, who was prettily attired in a yellow-cloth costume, was given away by her brother, Mr. George Yeamans, and Mr. Charles Yeamans, acting as best man. A sumptuous dinner and a supper was served to the bridal party and guests.

## WOMAN AND HUMOR.

It is a very old joke—one worn threadbare, indeed—that woman cannot perceive the humor of things as man does.

## ANNUAL MEETING OF HOME MISSIONS

Women's Society of Presbyterian Church—Elect Officers and Review Work.

The annual session of the Women's Home Mission Society of Edmonton, presided over by Rev. Mr. McQueen, was very successful. Delegates were in attendance from Stony Plain, Belmont, Fort Saskatchewan, and other points.

On the afternoon session Rev. Mr. McQueen, president of the society, occupied the chair. Mrs. Myers, in St. Paul's words, speech, was making the delegate. Mrs. McQueen, in her general address, referred to the past year, when assistance in the form of clothing and much literature was given to the people in various points in this province. A number of excellent papers had been read during the year by members of the society.

## Secretary of General Board.

Mr. H. N. Kipp, of Toronto, gave an interesting address upon union work in general. This session meeting had been fixed for that date would secure Mr. Kipp's presence here. This was done, and the session opened with the object of getting an insight at first hand of the work being done by the Home Missions in the west. Mr. Kipp is also making an official visit to the West Indies, and will be in the autumn, which had been delayed mainly by a request from Mrs. Borden, to speak to a general audience from the board of trustees. The hospital was built in memory of the late Mr. Borden, and intended especially for colored and poor settlers.

## Interest in Galician.

An excellent paper was read by Rev. Dr. McPherson, upon Galician. He spoke with admirable effort to adapt themselves to a new environment, and to make the best of them for them. A pleasing feature of the afternoon was Mrs. Waite's rendering of the sacred song "O eyes that are weary."

## Evening Session.

Tea was served in the school room, and the dainty viands prepared by members of the society were done justice to. All the members of the society, Mr. Forbes, of Fort Saskatchewan, convenor of home missions in Edmonton, Rev. Mr. McQueen, Rev. Dr. Campbell gave an address upon the Ruthenians and the Presbyterians with their educational concern, the Ruthenians being concerned by the speaker in the city.

Rev. Dr. Hartman, of Calgary, gave an interesting address upon mission work in general. Mrs. Moffat gave an address upon the Ruthenians in the manner. The concluding address was given by Rev. Dr. McQueen, who spoke on the Ruthenians and the Presbyterians with their educational concern.

The rapid development of the new country marked the time to do this work if it were ever to be done. For

Yet the power to perceive the ridiculousness of a loss is an advantage to us in the enjoyment of life. People seen in a ridiculous light are at tremendous disadvantage. So much so, that the sense of humor is a great power—indeed, make my enemies ridiculous.

The sense of humor may be an immense help, in carrying one over the dreary stretches inevitable in every life, and in the end, when the end comes, there are a large number of such men need not regret if they die deeply in peace.

A keen sense of humor makes life much easier for the person who possesses it. The world is a better place for him, and the sense of humor is a great strength, a great strength of character.

The person with a very keen sense of humor is apt to laugh in the presence of others. He is more likely to be a good friend, and to have a better feeling of others. Humor should not be placed above sympathy, for humor may make one less sympathetic to others, and less sympathetic to his friends.

The sense of humor has a great deal to do with the social life of a community. It is a great source of pleasure, and a great source of happiness.

The same made by Corp. McInnis at the Bisley meet in 1905 was 1000 yards, the second largest ever made in the match. Several years ago, Corp. D. P. McInnis, of Ottawa, then a member of the Royal Grenadiers, had

### ROOSEVELT BARS AUTOS.

None May Enter the President's Grounds at Sagamore Hill.

New York, Sept. 4.—The American idea says: President Roosevelt will renew his ban on motor cars in the White House grounds.

Yester evening, the president had his annual meeting with his cabinet, and

the young prince of the auto, King Alfonso of Spain, and still very excited, is to be seen in the White House, seeking for employment which aroused a certain amount of admiration.

On one occasion King Peter was so taken with the over the gross manner of his arrival that he ordered his son to be imprisoned in a fortress. But the prince, who had the honor of being present at the coronation of King Edward VII, was considerably damaged, mentally and physically, by the time he had

his prince's escapades in music halls and theatres, and his wild doings generally, and cannot make sense in Botswana, but everyone

now agreed that he is turning over a new leaf.

There is no question of state in connection with the amiable young prince's visit to England.

### PRINCE RUPERT IS TO BE MODEL CITY

Manager Morse's Mission to B. C. Landscape Gardener to Lay Out Territories.

Winnipeg, Sept. 4.—Frank W. Morse, vice-president and general manager of the Grand Trunk Pacific railway, who is on his way to lay out territories in British Columbia, will make the annual inspection of the new transcontinental railway to be completed by the end of September.

On Sept. 10 by G. M. Hock, president of Prince Rupert, who will be

accompanied by the G. T. P. vice-president, Mr. G. E. B. Morris, vice-

president of the Grand Trunk, and several other directors of the company.

From England, the suite arrived

on Sept. 1, and will be in Vancouver on Sept. 10 by G. M. Hock, president of Prince Rupert, who will be

accompanied by the G. T. P. vice-

president, Mr. G. E. B. Morris, vice-

president of the Grand Trunk, and several other directors of the company.

Both Mr. Hock and Mr. Morse will inspect the construction work that is now proceeding in the west, but the main inspection will be made in the east, and at that time will be connected with the company's project in British Columbia.

A visit will be paid to Prince Rupert, the site of the terminal which will be built on the site of the existing wharves.

It is now proposed to proceed

immediately following the arrival of G. E. B. Morris, vice-president, who will be sent on to Prince Rupert to plan the lay-out of the city, which is to be built on a distance of approximately fourteen miles.

This portion of the Grand Trunk system in this respect will be invaluable.

It has been demonstrated that the Dixon River is the only river in the world

which provides a continuous

series of rapids about and low

danger to navigation from Cape Flattery to the ocean.

For the sake of vessels making the passage, slightly out of the beaten track, on the western coast of Graham Island, a channel will be dredged from the mouth of the Dixon River to the ocean.

Frederick Passett, a distance of approximately fourteen miles.

This portion of the coast is accurately charted and navigators who fail to make Cape Flattery will be able to determine their position with reference to it by consulting the chart.

In time a lighthouse will be placed on Cape Knob and a fog signal will also be installed on reader island.

The Eggers has also thought up

the idea of building a bridge across the narrowest part of the channel.

Passett was found to be helpful

in this respect, and the bridge will be

constructed by the end of the year.
